

K-LOVE is the best radio to listen to in Austin, TX. They are different from the other alternative, they offer encouraging words and they are always positive. We need a station like KLOVE. So many listeners would be horrified not to have 92.1 in Austin. I think that by not having KLOVE, parents and children would not be able to listen to their car radio. There just isn't anything out there that is as "safe" to listen to as a family. Kids and adults need the encouragement! Please don't take our KLOVE, it's all I listen to!
